

September 16, 2024

To all Care Providers:

Through working closely with Dietary Services and reinforcing best practices within Nuclear Medicine, we feel confident reinstating an egg meal as the primary protocol for solid gastric emptying. Oatmeal will be available as needed in those allergic to eggs or otherwise indicated.

Thank you for your patience and support. If you have any questions, please contact our Radiology Department at 865-541-8116.

Sincerely,

Sid Roberts, MD
Medical Director of Radiology
